PETITIONING THE COURT

To issue a warrant and to incorporate the violation contained in this petition in future proceedings with the violations previously reported to the Court on 05/11/2016 and 05/20/2016.

The probation officer believes the offender has violated the following condition(s) of supervision:

<u>Violation Number</u>	<u>Nature of Noncompliance</u>
-------------------------	--------------------------------

3

Special Condition # 14: You shall abstain from the use of illegal controlled substances, and shall submit to urinalysis testing, as directed by the supervising officer, but no more than six tests per month, in order to confirm continued abstinence from these substances.

Supporting Evidence: On June 6, August 24, and September 16, 2016, Mr. Ike provided urinalysis samples which yielded presumptive positive for marijuana.

Each sample was sent to either Alere Toxicology (Alere) or Cordant Health Solutions (Cordant) for lab confirmation and to determine the level of tetrahydrocannabinol (THC) in Mr. Ike's sample. Alere has a cutoff level of 15ng/ml and Cordant has a cutoff level of 6ng/ml; any sample which is above these cutoffs will result in a positive confirmation.

The sample from June 6, and September 16, 2016, were sent to Alere and returned a level of 2771ng/ml and >2000ng/ml respectively. The sample from August 24, 2016, was sent to Cordant and returned a level of 293ng/ml.

Mr. Ike provided urinalysis samples on August 8, and 12, 2016, which were sent to Alere; however, those levels returned as 114ng/ml and 58ng/ml respectfully, suggesting the levels may be residual from the offender's previous use.

The lab results presented above suggest that Mr. Ike used marijuana on three separate occasions.

I declare under penalty of perjury that the foregoing is true and correct.
